

MICROMOUNTERS OF NEW ENGLAND

A FIELD TRIP to the DEMIX QUARRY in St. HILAIRE, QUE. has been arranged for the weekend of July 12th and 13th.

The hours in the workings are from 9AM until 4PM, and the charge of \$40 for each day will be divided evenly among those going in on that day.

Please remember, Hard Hats and Goggles are the order of the day. Also, it may be a good idea to take this paper with you to show at the gate in case any identification is required; especially, if you were to arrive late.

Now, I would like to have early notice from all who intend to make the trip for either day or both. The more, the better, for it will reduce individual fees.

MICROMOUNTERS OF NEW ENGLAND

How about a Combo; for old times sake? There exists a sort of tradition for the M. M.'s to have a summer meeting at the home of John and Martha Reiner in Center Harbor, N. H.; and a field trip to the Palermo Mine on the same weekend. So! Here we go again.

Sat. July 26th Hammers and energy at the Palermo Mine
No. Groton, N.H.

Sun. July 27th Mics and whateverites at the Reiners', in or out of doors, as conditions allow at the time. The time; from around 10AM through the afternoon. About midway, there will be a very short buisness session to plan for the rest of the year. As for lunch, we shall cater ourselves, each to his own taste.

Just about everyone knows the way to Palermo, but the Reiner place may be another case for newer members. The map below should be helpfull.

Asuggestion:- A few folding chairs, and a couple card tables could be useful. Outlet\$ will be provided.

A further note; The Pres. is taking the liberty of inviting any Micromounters from the Capitol M. C. and the Saco Valley M. C. to join us. They are already known to some of us and are naturally friends of the Riners anyway. To quote John, "All we need is a good gang".

Carl Calderara Pres.
