

MICROMOUNTERS OF NEW ENGLAND

The next regular meeting of the group will be on Saturday, November 20, 1976; at Boston University, from 10AM to 4PM. Arrangements for the previously scheduled Brown University meeting could not be completed so John Stewart has offered us the use of Boston University. For our New Hampshire friends this is an easy location to get to with the completion of I-93 into Boston (see map below).

As usual there is no set schedule but some time will be spent on Francon micros, in light of our recent trip and John Stewart's reference collection. Also, if there is time, slides of micromounts will be available for viewing.

Our next meeting will probably be in late January or early February.

John Anderson, President
